New And Improved Telephone Bills!

Beginning with your September 2007 statement, your bills will have a new look! Below is a sample bill showing the front page that summarizes your account. It also includes important messages from Polar and an attached remittance stub which is detached and returned to us with your payment. Please note that this cover sheet does not contain your telephone number but includes an account number instead. Your telephone number will appear on subsequent pages.

Don't forget you still have the option of viewing and paying your bill online with Polar's E-Statement. E-Statement is easy to use and secure. Using E-Statement doesn't mean you must pay your bill online. You can check your bill, sort your calls and information, and more. Using Polar's E-statement requires a

username and password.

If you would like to set up E-statement go to www.thinkpolar.com and click on E-statement after September 1st. If you have any questions regarding your new bill or E-Statement please contact our billing department at 1-800-284-7222 or billing@polarcomm.com. Our billing department is available Monday through Friday 8:00am-4:30pm.

Construction Notice

You may be seeing construction crews in your area as our fall upgrade projects are underway. We will be working in the exchanges of Niagara, Inkster, Gilby, Hoople, Crystal, St. Thomas, Wolverton and Walcott. Cutovers to the new plant facilities are planned for winter and into the spring of 2008. Please contact our office if you have any questions on the construction project in your area.

Yes, you can afford telephone service

Federal Law and state lawmakers believe that every person in America should have access to quality, affordable telecommunications service. In fact, they've created a system to do just that. If you participate in programs, such as food stamps, Medicaid, the national free-lunch program, Section 8 housing or supplemental security income, or if your household income is below a certain threshold level, you may qualify for a discount on your telephone bill.

This "universal service" support includes:

- Lifeline assistance that provides discounts for basic monthly local service
- Link Up that reduces the cost of initiating new telephone service
- Toll Limitation Service that allows you to control your long-distance charges
- Additional discounts for eligible consumers living on tribal lands

New Employees

Spencer Potts began his employment with Polar on June 20, 2007 as a Combination Person in the Special Services Department. His duties include installing and maintaining wireless Internet, DSL, business phone systems and other customer premise equipment. Spencer is a graduate of Bismarck State College with a degree in Electronics and Telecommunications Technology.

Spencer Potts

Matthew Almen began his employment with Polar on June 25, 2007 as the newest Central Office Technician. His duties include assisting in the design, development and maintenance support of local and wide area communication systems and installation and maintenance of all switching, carrier and miscellaneous equipment within the company service area. Matthew is a graduate of Northwest Technical College in Moorhead with an Associates degree in Microcomputer and Network Technology. Matthew was previously working for 702 Communications in Moorhead since 2002 before coming to Polar.

Matthew Almen

Blake Promoted

Polar Communications announces the promotion of Karl Blake to Chief Operations Officer. Karl will oversee the operations of the plant department including Outside Plant Operations, Internet/Network Services, Central Office and Cable Services Division.

Karl Blake

Karl began his employment with Polar in 1994 as Computer Programmer. He moved Central Office Technician in 1998, Network Specialist in 2000, then promoted to Internet Supervisor in 2002. Karl most recently held the title of Assistant Plant Manager under the leadership of recently retired Plant Manager, Jeff Torkelson.

Phone Locator Can Save Your Life

We've become a mobile world attached to our cell phones. Some of us cannot be without them for a minute. Since they entered our world, cellular phones have come along way...as far saving lives.

The "Locator" on your cellular phone can be set up 2 ways 1) E911 – which you must dial out to be located, or 2) can be set to locate at all times.

If you were unresponsive for some

reason, authorities or emergency personnel would be able to locate you.

Instructions: Look for "LOCATION" under "SETTINGS" on your phone. Once you activate this feature, your phone is traceable.

If you have problems activating this feature, please contact the Customer Service number on your Cellular Phone bill.

Jeff Torkelson Retires After 34 Years

Jeff Torkelson began his employment with Polar Communications in 1973 as a Plant Clerk. In August of the same year he was promoted to Military Dispatcher during the time Polar was involved in the work performed for the startup of the Missile Site Radar (MSR) Site located at Nekoma and the PAR Site north of Mountain. Through the years Jeff worked as a Combination Technician installing PABX, Key Systems and Alarm Systems and in 1997 was promoted to Special Services Supervisor. In 2005 he was named to the Management team as the Assistant Plant Manager. At the time of his retirement he was the Plant Manager. Jeff's last day at Polar was July 31, 2007. Jeff and his wife Pam plan to retire in Fargo.

Pam & Jeff Torkelson

Congratulations and best wishes on a happy and healthy retirement!

Coming September 4th on Channel 107 as part of the Expanded Basic package!

Watch today's hottest daytime soaps in primetime! Plus, catch your favorite primetime soaps and get inside access to stars and storylines through original programming all wrapped up in a soapy environment. It's all only on SOAPnet, the new way to watch soaps!
