

AWARD-WINNING SECURITY FOR PCS AND MACS THAT PROTECTS HOME USERS FROM COMPUTER VIRUSES, RANSOMWARE AND IDENTITY THEFT.

Your Digital Life. Protected.

ADVANCED ACTIVE PROTECTION: Advanced algorithms and Machine deep learning methods deliver fast threat detection against new, emerging and advanced threats.

REAL-TIME PROTECTION: Scans applications and files as they are being used to ensure they are safe before operation.

CLOUD-ENABLED SECURITY: VIPRE communicates to the cloud which allows all customers to be protected immediately when needed.

COMPLETE PROTECTION: Anti-Spyware, Antivirus, Malware and Spyware protection. Innovative security technology detects and removes viruses, spyware, malware and other advanced threats.

RANSOMWARE PROTECTION: VIPRE's advanced active protection engine stops zero-day exploits from running before they get a chance to run.

APPLICATION PATCHING: Third party application patching. Keeps installed application on your computer up to date which reduces overall vulnerabilities in your security profile.

ANTI-SPAM PROTECTION: Scans incoming email to prevent unsolicited mail and filter our spam.

FIREWALL: VIPRE provides security to give you tough protection against malware and intruders. It blocks unauthorized attempts to connect a device to the Internet and provides end-to-end protection before, during and after downloading applications.

AUTOMATIC UPDATES: VIPRE is designed to update automatically, and protect against the most advanced cyber threats.

UP TO 3 DEVICES COVERED **\$5⁹⁵ mo.**
